

CORPORATE GOVERNANCE

[View Datapoints](#)

Accurately pinpoint and benchmark Corporate Governance data to enhance your analysis.

Leverage our AI and machine learning technology to dive into our continuously updated data on every aspect of Corporate Governance from every publicly traded company in the US.

Deep History & Even Deeper Sources

Our database covers 100s of Corporate Governance datapoints from 10-15 years of historical data with 5,000+ companies.

Artificial Intelligence

Our AI extracts, aggregates, and transforms data into intelligence from a variety of documents, enabling our users for the first time to quantitatively and qualitatively analyze companies from a SINGLE platform.

Esoteric Data Points

Benchmark hundreds of Corporate Governance datapoints and the roles and responsibilities of 80,000+ directors over the past 12 years.

Pinpoint Search

Identify ESG, board diversity, proxy access, written consent, and hedging/pledging practices; poison pill or rights plans; clawback provisions; and more.

Instant Industry Reports

Trending topics or custom reports with overviews that provide statistical summaries of esoteric data points for broad analysis. Reports also allow you to drill down into specific data points that link to original source documents.

Contract-Free Subscription

Free yourself from multi-year contracts.
